What is Green?

What does it mean to be “green”? A lot of emphasis has been put on being “green” or environmentally friendly, as we all look for ways to conserve, replenish and otherwise help the environment we live in. Allan Block has been building “green” for over 20 years and is geared up to bring more “green” solutions to the table.

How Allan Block Builds Green

• Erosion Control
  Allan Block retaining walls help prevent soil erosion which is a serious threat to the environment. Keeping the soil where it should be and out of our waterways and roadways.

• Environmentally Friendly
  No toxins to harm the environment. Unlike treated timbers, concrete has no toxic chemicals to harm the earth.

• Durable
  Made of concrete, Allan Block’s landscape forms surpass that of any other retaining wall material. Its resistance to weathering and time make it the most environmental choice. It won’t rot or degrade.

• Plantable
  Allan Block Retaining Wall products have a hollow core that allows the blocks in the top course of the wall to be filled with soil and planted, adding more usable space and beautification to the project.

• Reusing Materials
  Allan Block Products may be manufactured using recycled materials. The concrete waste that is made during production of Allan Block products can be crushed up and re-used as well, effectively reducing our impact on local landfills.

• Other Green Ideas
  Allan Block Products can be used in a variety of ways to make your life more “green”. Build a compost bin to recycle your yard waste, a fence to add privacy that won’t rot away, or a pond to collect rainwater. The possibilities are extraordinary—what “green” Allan Block projects can you think up?

AB Courtyard Collection™

Limitless Project Ideas for Outdoor Living

Over the last several years, outdoor living has become a huge part of our lives. In fact, it is so big now that people are bringing the outdoors inside by turning their porches, decks, and patios, into kitchens, dining rooms, and living room areas that are perfect for entertaining.

With the dawn of this outdoor living trend has come the need for new and innovative ideas and products to enhance these outdoor spaces and create an attractive and inviting environment. In fact, it is so big now that people are bringing the outdoors into their homes.

One of the top innovative products is the AB Courtyard Collection by Allan Block. This versatile two-sided freestanding system can transform the beauty of any backyard landscape. The walls and pavers can be used in a wide variety of features that are sure to dazzle the landscape.

What are some of the hottest trends in outdoor living?
- Outdoor Kitchens
- BBQ Grilling Stations
- Outdoor Bars
- Entertaining/Seating Areas
- Patios & Lighting
- Fire Pits and Fireplaces
- Water Features

Outdoor Kitchens
The outdoor kitchen is no longer a place just for the grill. The outdoor kitchen can incorporate so much more. Use AB Courtyard to create a custom kitchen or grilling station to fit the design and style of your space. Keep it simple with an attractive and functional area for all your basic cooking and grilling needs, or add appliancetechnology like a refrigeration unit and oven to give your outdoor kitchen a more elaborate design.

BBQ Grilling Stations
No room for an elaborate outdoor kitchen, but still want to enhance your space? Try a AB Courtyard Grilling station using the AB Courtyard Collection. Dress up a grill of any shape and size with a custom surround. Most can be built in just a weekend and can provide more usable space around your grill for cooking up all those tasty summertime outdoor treats.

Entertaining and Seating Areas
Whether you are dining out, entertaining or just plain relaxing, patio seating areas are fun places to spend your free time. Using the AB Courtyard Collection, you can create a variety of seating options depending on where and how you want to use the space. There are many great locations for relaxing, think beyond the porch – consider the entire yard. Use a patio to create an outdoor room with built-in seating, add an outdoor couch or secluded garden bench. Find the best spot in your yard and create your refuge.

Patios & Lighting
Welcome your guests into the outdoors with a beautiful patio surround. Frame in your patio to create additional seating and a backyard oasis that everyone will enjoy.

Fire Pits & Fireplaces
Fire not your game? Then just add water. Enhance your yard with the tranquility of an AB Courtyard water feature. Create a relaxing sanctuary of flowing fountains, ponds or even waterfalls. The peaceful sounds are sure to calm and soothe daily stress away.

Water Features
The possibilities are endless. AB Courtyard Collection is a versatile product that can be used to create beautiful and creative outdoor living areas. With such a wide variety of ways to build with AB Courtyard you can be sure to find the right project or application to incorporate into any outdoor living space.

Endless Possibilities
With the continued trend in enhancing and expanding our outdoor living, the need for new and innovative ideas is ever growing. The AB Courtyard Collection is a product that will continue to grow and adapt to these continued trends. Contractors and DIY homeowners all across the country are finding new and innovative ways to use Allian Block Products. How can you use AB Courtyard to create beautiful and creative outdoor living spaces?

What is Green?

What does it mean to be Green? A lot of emphasis has been put on being "green" or environmentally friendly, as we all look for ways to conserve, replenish and otherwise help the environment we live in. Allan Block has been building "green" for over 20 years and is geared up to bring more "green" solutions to the table.

How Allan Block Builds Green

- **Erosion Control**
  Allan Block retaining walls help prevent soil erosion which is a serious threat to the environment. Keeping the soil where it should be and out of our waterways and roadways.

- **Environmentally Friendly**
  No toxins to harm the environment. Unlike treated timbers, concrete has no toxic chemicals to harm the earth.

- **Durability**
  Made of concrete, Allan Block’s landscape walls surpass that of any other retaining wall material. Its resistance to weathering, and time make it the most environmental choice. It won’t rot or degrade.

- **Plantable**
  Allan Block Retaining Wall products have a hollow core that allows the blocks in the top course of the wall to be filled with soil and planted, adding more usable space and beautification to the project.

- **Reusing Materials**
  Allan Block Products may be manufactured using recycled materials. The concrete waste that is made during production of Allan Block products can be crushed up and re-used as well, effectively reducing our impact on local landfills.

- **Other Green Ideas**
  Allan Block Products can be used in a variety of ways to make your life more "green". Build a compost bin to recycle your yard waste, or add privacy that won’t rot away, or a pond to collect rain water. The possibilities are extraordinary - what "green" Allan Block projects can you think up?
